

# 1 Syllabus and Schedule

Find the course syllabus and schedule on Canvas. Read through them carefully and bring your questions to the second day of class.

## 2 Quantum sensemaking

*8 points* There are two more questions in this homework. Please log in to Gradescope and complete HW1.

## 3 Expectations for this course

*2 points* Welcome to the class!

We would like to get to know you a bit and learn about your expectations for this course. Please take a few minutes to share your thoughts on the following questions.

- (a) What have you heard or learned about quantum mechanics? Where did you learn it?
- (b) What do you expect to get out of this class? (This could include how you hope your understanding, ways of thinking, confidence, or feelings about quantum mechanics will develop over the term.)
- (c) How do you feel about taking this class? Nervous, excited, bored, etc.? What makes you feel that way?
- (d) Are there aspects of quantum mechanics you are particularly curious about?
